# PoRA — Proof of Real Asset

AI-verified RWA proofs on Stacks (Bitcoin-anchored)
Team: <your-name>

# Problem

RWAs live in fragmented systems. Investors and lenders cannot independently verify asset existence

# Solution

PoRA mints verified proof NFTs:
- AI verifies documents
- IPFS stores evidence
- Clarity mints NFT
- Anchored to Bitcoin via Stacks

# Tech

Clarity contract, FastAPI verifier (OCR + LLM heuristics), IPFS/Arweave storage, Stacks wallet integra

# Business

Mint fees, SaaS API, enterprise integrations. Target auditors, NBFCs, custody providers.

# Ask & Roadmap

Hackathon MVP, $25k for production-grade verifier and pilot
Roadmap: escrow, custody integrations, compliance.
